

To whom it may concern,

My life would have been very different if I had not found a healthy regime, including massage from Deb Jackson. Since 1992, her experience and techniques have kept me physically able to do my career as a Mobile DJ.

I highly recommend her to anyone needing therapeutic bodywork. Not only is she able to relieve my pain during sessions, but her knowledge and willingness to share has been most valuable to my overall health.

When we are in pain its hard to focus on life; depression, lethargy (etc.) are helped with sessions from Deb.

God Bless her and her ever increasing talents.
