

Joe & Jean Amwake

Feb 5 07

the recommendation of friends,
Don Jolly & contacted Bob Jackson
for relief from back pain. I was
suffering from severe muscle spasms
in my back and numbness in my
arm and hand. I also had
sharp pains on my right side
due to an existing kidney stone.
Bob has been able to eliminate
all pain, arm numbness and
help of an operation apparently
to remove my kidney stone. Gre has
developed an exercise and diet
program to maintain my improved
condition. My posture has also
improved greatly as a result of the
program and exercise. I sought
treatment as an alternative
to surgery and am glad I did.
