Dear Ms. Jackson:

I would like to take a moment to thank you for the wonderful massage therapy you have been providing for me over the last two and one half years.

As you know, at that time, I was experiencing a recurrence of a severe back spasm. Your massage therapy, along with chiropractic adjustments, resolved that episode. Over the years, our sessions have focused more and more on opening and loosening core areas of tension and restriction, areas that I did not realize were there! You have done this difficult work cheerfully but with determination and helped me get through many difficult times. About a year ago this Summer, during one of your sessions, I had an insight into a personal experience which probably has triggered many of the episodes. The insight helped relieve the spasms at the time, and I have not had that sort of pain since then.

Your unique and intuitive method of working combines massage, deep massage and structural work with stretches and releases in a unique combination. I highly recommend you to others and very much appreciate your caring and professional manner. Thanks again.

Sincerely,
